## **DETAILED ACTION**

### ***Drawings***

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the systems must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 10, 27, 37 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 claims a system comprising "means for crushing", "separating means", "fusing means" and "means to recover valent metals" but these apparatuses are not shown in Fig. 2 or described on page 24 as argued by applicants.

Claim 10 claims a system comprising a "cooling device" and a "crushing device" but these apparatus are not shown in Fig. 2 or described on page 24 ; also, how the

“crushing device” of Claim 10 differs from the “means for crushing” of Claim 2 is not clear.

Claim 27 claims a system comprising “rare earth elements removing means”, “drying means” and “fusing means” but these apparatuses are not shown in Fig. 2 or described on page 24; also it is unclear how the “fusing means” of Claim 27 differs from the “fusing means” of Claim 2.

Claim 37 claims a system comprising “means for crushing”, “separating means”, “oxidizing means” and “means to recover valent metals” but these apparatuses are not shown in Fig. 3 or described on page 27 as argued by applicants.

Claim 38 claims a system comprising “means for crushing”, “separating means”, “reduction fusing device”, “decarbonizing device” and “means to recover valent metals” but these apparatuses are not shown in Fig. 9 as argued by applicants.

Claims 2, 10, 27, 37 and 38 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: the relationships of the apparatuses in Claims 2, 10, 27, 37 and 38. Applicants’ argument that identifying the apparatuses alphabetically amounts to structural relationship is not well taken since as shown in Fig.1 at least three crushing processes and at least one pulverizing process occur note that a first sieving process occurs before a third crushing process so that to alphabetically identify a crushing means and a sieving means would not necessarily locate the means to carry out the functions of sieving and crushing.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
